## Program

≪Excerpt only International Sessions

### Invited Lecture 1 : Targeting Inflammation & Fibrosis in Kidney Disease

Date : 11:00 a.m. - 11:50 a.m., May 26 (Fri)  
Venue : Room 1 (Sendai International Center, Conference building 2F \*Main Hall\*)  
Chair : Naoki Kashihara (Kawasaki Medical School)  
Speaker : David Harris (Department of Renal Medicine, University of Sydney / International Society of Nephrology)

### Invited Lecture 2 : Role of CTGF in regulation of glomerular hemodynamics

Date : 11:00 a.m. - 11:50 a.m., May 27 (Sat)  
Venue : Room 5 (Sendai International Center, Conference building 2F \*Main Hall\*)  
Chair : Shuji Arima (Division of Nephrology, Department of Internal Medicine, Kindai University Faculty of Medicine)  
Speaker : Yulin Ren (The Hypertension and Vascular Research Division at Henry Ford Hospital)

### Invited Lecture 3 : Kidney NADPH-oxidase determinants of blood pressure salt-sensitivity and renal injury

Date : 11:00 a.m. - 11:50 a.m., May 28 (Sun)  
Venue : Room 1 (Sendai International Center, Conference building 2F \*Main Hall\*)  
Chair : Naoki Masaoami Nangaku (Division of Nephrology and Endocrinology, The University of Tokyo Graduate School of Medicine)  
Speaker : Allen W. Cowley, Jr. (Medical College of Wisconsin)

### Japan-China-Korea Kidney Conference

Date : 9:00 a.m. - 11:00 a.m., May 26 (Fri)  
Venue : Room 5 (Sendai International Center, Conference building 2F \*Sakura Hall 2\*)  
Chairs :  
Xueqing Yu (The First Affiliated Hospital, Sun Yat-sen University)  
Hyung-Cheon Park (Department of Internal Medicine, Gangnam Severance Hospital, Yonsei University College of Medicine)  
Yasunori Iwata (Division of Nephrology, Kanazawa University Hospital)

1. Organization and application of 3-CKD-DB  
Hirokazu Okada (Department of Nephrology, Saitama Medical University)
2. Baseline characteristics of study subjects in Korean cohort study for Outcome in patients With Chronic Kidney Disease (KOW-CKD)  
Tae-Hyun Yoo (Department of Internal Medicine, Shinchon Severance Hospital, Yonsei University College of Medicine)
3. Dialysis registration in China  
Chuan-Ming Hao (Division of Nephrology, Huashan Hospital, Fudan University)
4. The present status and the future of dialysis in Japan  
Hidetomo Nakamoto (Department of General Internal Medicine, Saitama Medical University)
5. Hemodialysis therapy in Korea: Korean Society of Nephrology ESRD registry data and HD quality assessment data by government  
Dong-Chan Jin (Department of Internal Medicine, St. Vincent Hospital, The Catholic University of Korea)
6. Dialysis modality of Chinese Diabetic Patients  
Xueqing Yu (The First Affiliated Hospital, Sun Yat-sen University)

### Asian Session

Date : 11:00 a.m. - 12:05 a.m., May 26 (Fri)  
Venue : Room 5 (Sendai International Center, Conference building 2F \*Sakura Hall 2\*)

#### Invited Lecture

1. PD: Current Challenges and Perspectives  
Chairs :  
Chuan-Ming Hao (Division of Nephrology, Huashan Hospital, Fudan University)  
Takashi Yokoo (Division of Nephrology and Hypertension, Department of Internal Medicine, Jikei University School of Medicine)  
Speaker :  
Philip Kam-Tao Li (Department of Medicine & Therapeutics, Prince of Wales Hospital, Chinese University of Hong Kong)
2. Hemodialysis in Indonesia: limitations and challenges  
Chairs :  
Dong-Chan Jin (Department of Internal Medicine, St. Vincent Hospital, The Catholic University of Korea)  
Reiko Inagi (Division of Chronic Kidney Disease (CKD) Pathophysiology, The University of Tokyo, Graduate School of Medicine)  
Speaker :  
Ginova Nainggolan (Division of Nephrology and Hypertension, Cipto Mangunkusumo Hospital Jakarta)

#### Oral Session

- Chairs :  
Tae-Hyun Yoo (Department of Internal Medicine, Shinchon Severance Hospital, Yonsei University College of Medicine)  
Seiji Ueda (Department of Nephrology, Juntendo University)
1. ATF6 deranges tubular homeostasis via mitochondrial fatty acid metabolism: a role for ATF6-PPAR $\alpha$  axis  
Tsu-Ming Jao (Division of CKD Pathophysiology, The University of Tokyo Graduate School of Medicine)
  2. The pivotal role of TRPV4 and Connexin43 channel transactivation in mediation of aminoglycoside-elicited renal tubular cell injury  
Xiling Zhang (Department of the Advanced Biomedical Research, Interdisciplinary Graduate School of Medicine, University of Yamaguchi)

#### Closing remarks

Massami Nangaku (Division of Nephrology and Endocrinology, The University of Tokyo Graduate School of Medicine)

≪Poster Session ≫ ≪Poster session is held on May 27 (Sat)

≪Poster session Program (PDF 90KB)

### JSN/ASN Joint Symposium

Date : 2:30 p.m. - 4:30 p.m., May 26 (Fri)  
Venue : Room 5 (Sendai International Center, Conference building 2F \*Sakura Hall 2\*)  
Chairs :  
Alessia Fornoni (University of Miami)  
Shoichi Maruyama (Nagoya University Graduate School of medicine)

1. onward creating the functional podocytes from pluripotent stem cells  
Atsuhiko Taguchi (Institute of Molecular Embryology and Genetics, Kumamoto University)
2. Role of endocytic proteins in podocytes- Insights into the biology of nephrotic syndrome  
Shuta Ishibe (Yale University School of Medicine)
3. Nuclear translocation of dimenin in podocytes and progression of CKD  
Katsuhiko Asanuma (Kyoto University Graduate School of Medicine, Medical Innovation Center, TMK project)
4. Podocyte lipid metabolism in glomerular diseases  
Alessia Fornoni (University of Miami)

### JSN/KDIGO Joint Symposium

Date : 9:00 a.m. - 11:00 a.m., May 27 (Sat)  
Venue : Room 5 (Sendai International Center, Conference building 2F \*Sakura Hall 2\*)  
Chairs :  
Masafumi Fukagawa (Division of Nephrology, Endocrinology and Metabolism, Tokai University School of Medicine)  
Yusuke Tsukamoto (Department of Nephrology, IMS Group Itabashi Chuo Medical Center)

1. Current progress in KDIGO initiative  
Yusuke Tsukamoto (Department of Nephrology, IMS Group Itabashi Chuo Medical Center)
2. KDIGO Conference Report-Implementation strategy, Understanding needs in low and middle income countries  
Vivekanand Jha (University of Oxford / Postgraduate Institute of Medical Education and Research)
3. KDIGO: Controversies and Consensus in Rare Kidney Disorders  
Olivier Devuyst (Institute of Physiology, University of Zurich)
4. KDIGO Conference Report-Atypical hemolytic uremic syndrome and C3 glomerulopathy  
David Kavanagh (Institute of Genetic Medicine, Newcastle University)

### JSN/ERA-EDTA Joint Symposium

Date : 3:00 p.m. - 5:00 p.m., May 27 (Sat)  
Venue : Room 5 (Sendai International Center, Conference building 2F \*Sakura Hall 2\*)  
Chairs :  
Gert Mayer (Division of Nephrology; Department of Internal Medicine, Innsbruck Medical University)  
Takashi Wada (Department of Nephrology and Laboratory Medicine, Kanazawa University)

1. Renal disease in patients with diabetes: a view at heterogeneity/br>Gert Mayer (Division of Nephrology, Department of Internal Medicine, Innsbruck Medical University)
2. SGLT2 inhibitors and renoprotection  
Ivan Rychlik (1st Department of Medicine, 3rd Faculty of Medicine, Charles University)
3. New therapeutic targets of diabetic nephropathy: lessons learned from calorie restriction  
Shinji Kume (Department of Medicine, Shiga University of Medical Science)
4. Endothelial Dysfunction: a common mechanism underlying CKD  
Naoki Kashihara (Department of Nephrology and Hypertension, Kawasaki Medical School)
