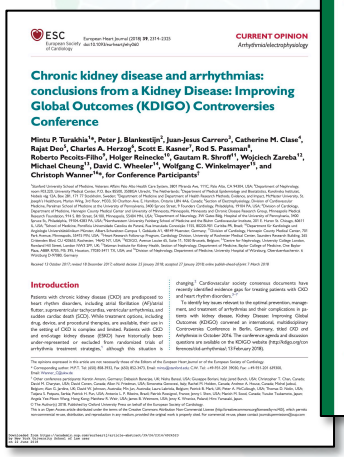
KDIGO Controversies Conferences

Controversies Conferences examine significant topics in nephrology and related disciplines that are not fully resolved. Results in a published paper, usually in *Kidney International*. Often a Controversies Conference will prompt development of a guideline or a guideline update.

Recently Published Controversies Conference Reports



CKD & Arrhythmias

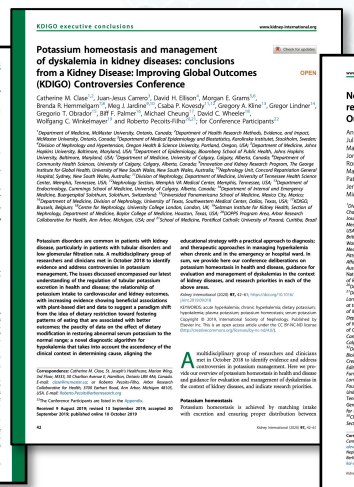
Heart Failure in CKD

CKD & Coronary Artery Disease

CKD & Valvular Heart Disease

Dialysis Initiation, Modality Choice, Access & Prescription

Blood Pressure & Volume Management in Dialysis



Challenges in Conducting Clinical Trials in Nephrology

Potassium Homeostasis & Management of Dyskalemia in Kidney Diseases

Nomenclature for Kidney Function & Disease

Upcoming Controversies Conference Reports

Acute Kidney Injury

- Co-Chairs: John Kellum & Marlies Ostermann

Onco-Nephrology

- Co-Chairs: Jolanta Małyszko & Camillo Porta

Early Identification & Intervention in CKD

- Co-Chairs: Michael Shlipak & Sophia Zoungas

Optimal Anemia Management in CKD

- Co-Chairs: Tilman Drüeke & Jodie Babitt

Central & Peripheral Arterial Diseases in CKD

- Co-Chairs: Kirsten Johansen & Holger Reinecke

KDIGO AKD Consensus Conference

KDIGO is holding a virtual Consensus Conference on **Harmonizing Acute and Chronic Kidney Disease Definition and Classification** in August 2020. The purpose of this conference will be to review the evidence to date and develop a definition, classification, and management recommendations for AKD that are harmonized with the current definitions, classification, and management recommendations for AKI and CKD. The conference also will identify the key areas of research required to fully understand the relationships between these entities. Ultimately, the outcome of this conference would benefit clinical practice, research and public health by using a uniform nomenclature.

The KDIGO Consensus Conference on AKD is co-chaired by **John Kellum**, University of Pittsburgh; **Norbert Lameire**, Ghent University; **Adeera Levin**, University of British Columbia; and **Paul Stevens**, East Kent Hospitals University NHS Foundation Trust.
